Welcome
update your computer

Get the latest updates available for your computer's operating system, software, and hardware. Windows Update scans your computer to see what updates are required and provides you with a list of updates tailored just for you.

Express Install (Recommended): High Priority Updates for Your Computer
Choose this for the fastest updating. Quickly scan for, download, and install only the critical and security updates your computer needs.

Custom Install: High Priority and Optional Updates for Your Computer
Choose this to scan for optional, critical, and security updates your computer needs, choose from all the updates on the site, and review updates before downloading.

Left mouse click on **Custom Install: High Priority and Optional Updates for your Computer**
